## EDUCATION

### Lambton College

*Post Graduation in Full Stack Software Development, 3.61/4*

Ottawa, ON

*Sept. 2024 – Present*

### Thapar Institute of Engineering and Technology

*Bachelors of Engineering in Electronics and Communication, 7.33/10*

India

*Aug.2019 – July 2023*

## EXPERIENCE

### Cipher Square Technologies

*Software Developer*

Oct 2023 – July 2024

*Delhi, India*

- Developed RESTful APIs using Flask to facilitate communication between NLP modules and front-end components, improving integration efficiency and enabling scalable deployment.
- Enhanced NLP models to improve text analysis accuracy by 20%, while implementing user interaction features to increase engagement and streamline user feedback collection.
- Implemented AI models, improved data extraction accuracy by 30%, optimizing information retrieval across applications.

### Eaton Corporation

*Data Science Intern*

Mar. 2023 – Sep. 2023

*Pune, India*

- Developed a Python-based search tool with NLP techniques, leveraging Named Entity Recognition (NER) to extract data from PDF and Excel files, enhancing data retrieval efficiency and user interaction.
- Engineered an Automatic Report Generation tool using Python, integrating PyQt5 and Tkinter for a user friendly interface.
- Streamlined Excel and Word interactions by incorporating openpyxl, docx, regex libraries, and Word VBA Macros, automating report generation and improving efficiency by 40%.

## PROJECTS

### Spiro | *Python, Algorithm Optimization, Constraint Satisfaction, CLI Tools, Unit Testing*

- Developed a high-performance backtracking algorithm in Python to solve 81-cell Sudoku puzzles, addressing the challenge of creating an efficient puzzle solver.
- Optimized algorithm with smart candidate selection and preprocessing to minimize backtracking steps, reducing average solve time to under 2 seconds.
- Validated performance by testing across 1,000+ puzzles of varying difficulty levels, achieving 100% accuracy and consistent speed benchmarks.

### Toasty Haven | *HTML, CSS, JavaScript, Responsive Design, Performance Optimization*

- Developed a responsive, cross-browser website using HTML, CSS, and JavaScript to effectively showcase products and company information.
- Implemented interactive UI features and optimized front-end code, enhancing usability and engagement across desktop and mobile platforms.
- Improved performance by optimizing assets and code structure, achieving a 90+ Lighthouse score and ensuring a seamless user experience.

## TECHNICAL SKILLS

**Languages:** Python, C/C++, JavaScript, HTML, CSS, SQL, Java

**Frameworks:** ReactJS, Node.js, Flask, Material-UI, RestAPI

**Developer Tools:** Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, Eclipse, Linux/Ubuntu

**Libraries:** Pandas, NumPy, Matplotlib, PyQt5, Tkinter

**Core Skills:** Data Structures, Object-Oriented Programming (OOPs), DBMS, DevOps/Cloud
